### LETTERS FROM THE PEOPLE.

THE CHRONICLE'S SYMPOSIUM OF BRIGHT MINDS.

State Superintendent of Schools Finger Endorses Prof. Winston's Article and Discusses Public Schools-- A Texas Letter -- The A. and M. Boys at Cary.

### PROF. WINSTON'S ARTICLE EN-DORSED.

(Special Cor. STATE CHRONICLE )

This article should have appeared several days ago, out news items have pressed our columns so that it has been crowded out. But it is so good that the delay can take nothing from it. - EDI-TOR.

RALEIGH, N. C., March 28.-I am much pleased to see that the public school question is likely to be freely discussed in the CHRONICLE. I think I am one of the last men to desire to have the people taxed beyond their reasonable ability to pay; but this school question is the people's question, and they will properly dispose of it. No one ought to be afraid of the discussion of this subject. Let all the light be thrown upon it that is possible.

Let what we are doing really and in comparison with other States and countries be known; let what the different cities in our own State are doing and the effects thereof be stated; let the bearing of the negro question on the school problem be investigated-the amount of money the negroes get for schools and the amount they pay in taxes for them, and the good or evil resulting to the negroes and the State; let us consider whether, whatever may be said about the good or evil effects of the education of the negro, we can afford not to educate the white people of the State; let us consider the statement so freely made that our schools are ineffi cient because of the short terms and of incompetent teachers; let us recognize the fact that, even if it were the proper thing to do, it is impossible to abolish the public schools: let us recognize the further potent fact that, with the money now paid, the schools cannot possibly be made much better.

Professors McIver and Alderman in their Institute work are earnestly and their Institute work are earnestly and intelligently trying to improve the teachers, and they are doing much in that direction. They are likewise discussing all the points above named and securing the people's attention to them, and the Press is helping much to bring our real condition to the knowledge of the people and to get them in good earnest to consider it and what ought to be done.

Such articles as the one from Prof. G.

Such articles as the one from Prof. G.
T. Winston, in your issue of the 27th inst,
will do much to further investigation.
I for one want to thank him for that article. It was indeed "an object lesson"
to show what wonderful results are posto show what wonderful results are possible by co-operation in school work. Goldsboro was selected not inappropriately. Similar results might be shown by the history of other city schools in the State. Indeed these city schools have, in the main, illustrated good methods of teaching and school management, and have given an impulse to the whole school work of the State.

I was also glad that such an article was written by a Professor of our University, itself a public school. As the head of the public school system, it is of course expected that all the teaching at the University will be such as thoroughly to impress every student with the necessity of public education, and of the most liberal support of it in money that the people can afford.

the people can afford.

I was also glad that Prof. Winston gave due credit for such intelligent work and good results in the Goldsboro schools to Messrs. Moses, Alderman, Joyner, Claxton, Kennedy, B. C. Mc-Iver, and Howell. If Prof. Winston had been giving his object lesson in the history of other city schools in the State, he could have said much about other men who have demonstrated the cheap ness and good results of co-operation in public school work.

If we can agree as to what ought to be done in public education in the cities and in the country districts, we will find the means to do it. "Where there is a will there is a way."

Very respectfully, S. M. FINGER, Supt. Pub. Inst. AN HONORED TEXAN WHO IS A NATIVE NORTH CAROLINIAN.

[Special Cor. of STATE CHRONICLE.] Cisco, Tex., March 30. - Enclosed find postal note, renewal of my subscription to the CHRONICLE. I can't do without a North Carolina paper, and naturally want the best one I can get; ergo. Let me wish you continued success in the weekly, and a rapid growth in the new-born daily, and predict both. The bold, aggressive and unsubsidized journalism in North Carolina deserves and insures success.

One of the best known and most honored men in Texas is William Carroll Crawford, a North Carolinian, born in Fayetteville, 1804 He is the sole surviving signer of the Texas Declaration of Independence of 1836. He is a lineal discendant of Charles Carroll a signer of the Dec'aration of American Independence; and if any more declarations are going to need signing the family can

be relied upon ; he has twelve children. I might write much of the greatness of Texas; of the enormous increase of her taxable valuation; of her annual expenditure of more than two million dollars fer public schools, supplemented by a no less amount by local taxation; of her future possibilities; and of the popular error in the East of a "Wild and woolly West." But it would be a reflection upon your intelligence.

## AUCTION SALE OF LAND.

Marched Down Again.

(Special Cor. STATE CHRONICLE.)

CARY, N. C., April 2, 1890.

Thirty-nine students from the A & M.

College marched into Cary on the first of April, with a white flag floating above them, keeping step to music on a French harp and bones. They had escaped the guard and gotten out of their quarters in the college at 4 a. m. They tried to have a good time, but the fun was getting monotonous. They bought up all
